Novell Client and Groupwise

The Novell Client is required for access to network resources such as the H drive, S drive, and T drive as well as printing to the printers on campus. Groupwise allows you to access your Landmark email on your computer.

To remove Novell:

Click on Start
Click Control Panel
Click Add/Remove Programs

Look for Novell Client for Windows, click on it
Click on Change/Remove

This will uninstall the Novell Client.

To remove Groupwise:

Click on Start
Click Control Panel
Click Add/Remove Programs

Look for Groupwise and click on it
Click Remove

This will uninstall the Groupwise Client.
