Activating Kurzweil 3000

Before you use Kurzweil 3000 for the first time, follow these steps to activate (& register) the software (make sure you have your Kurzweil serial number nearby – this can be found on the disk or box that accompanied your purchase of Kurzweil):

1. Double-click on the Kurzweil icon on your desktop.

2. The window below will appear. Click “Activate Now”.

3. In the following window, click “Online”.

4. Select “Create a New Account” and then click “Next”.

5. Enter your **Username** (same as your GroupWise Username: your first and last name, all as one string of letters).

   Then enter your **password** (also, same as GW password) and then verify your password by re-typing it.

   Then click “Next”.

6. Fill in all of your registration information (only items marked in red are required) and then click “Next”.

7. Activation is almost finished! Fill in the last screen (using the current month and year as purchase dates), making sure to enter your exact serial number. Then click “Register” and you are done! You can now explore Kurzweil 3000!

For support in learning to use Kurzweil, contact Technology Learning Services at TechLearning@landmark.edu.

Note: There is a new feature in Kurzweil 3000 version 10 that allows you to use Kurzweil to read, even when the Kurzweil program is not open. This new feature is call the Kurzweil Taskbar.

To access the Kurzweil Taskbar, do a right-click with your mouse on the blue task bar, and select “Toolbars” > “Kurzweil Taskbar” on the menu that appears. Then you will see this:

To use the Kurzweil Taskbar, just highlight any text (for example, the text from an e-mail) and drag and drop it into the little box with the Kurzweil logo. Another window will then pop up and read the text to you! Check it out!
